Stmr. Mikahala, Gregory, for Elele, Hanalei, Makaweli, Waimea and Kaula; mail and passengers only for Nawiliwili and Koloa, at 5 p. m.

CARTER WILL NOT DISCUSS KEPOIKAI

Acting Governor Carter was seen today with reference to the matter of the letter of Treasurer Kepoikai, which appears in another column. He had the following to say: "I do not desire to discuss the matter now. Mr. Kepoikai has outlined his position and I now know how to proceed. What I shall do I do not care to say just now. I am holding down the duties of the office of governor for the present, pending the arrival of my commission as governor of the Territory. I have decided on nothing yet with reference to appointments to the other offices under the territorial government."

Marston Campbell, former Assistant Superintendent of Public Works, has been very kind and courteous. Although he has sent in his resignation he has given me his personal assurance that he shall remain in his office and attend to the details of the work of the department until such time as governmental matters should become settled."

MAUNA ALA NEWS.

Some time ago Captain Campbell, manager of the Wilder Steamship Company's ship chandlery, received a letter from Captain Smith, the well known master of the Mauna Ala, which was wrecked at Topolobampo, Mexico, some months ago. Captain Smith wrote from Mazatlan when he was staying while a suit for damages instituted by the vessel's owners, of whom Captain Smith is one, against the Mexican authorities at Topolobampo. From Captain Smith's letter it appears that the Mauna Ala was being towed into that port by a tug, the master of which also acted as pilot. Captain Smith gave the master of the tug the Mauna Ala's draught when was taken hold of by the tug. The tug attempted to take the Mauna Ala across the bar in spite of the fact that there was not sufficient water on it, and the vessel was wrecked in her attempt. In consideration of these facts the Mauna Ala's owners brought suit against the tug people.

TURK ARRESTED.

Frank J. Turk was not in Federal Court this morning when Assistant U. S. District Attorney Dunne read motion to amend judgment so that he, Turk, could be imprisoned in the event of his not paying the fine imposed (and at that time unpaid) for violating a Federal statute guarding sailors from extortion on the part of shipping masters and others.

Judge Dole granted the motion and Turk was immediately placed under arrest.

A Toast

Here's to you, my lady
The Queen of all the world:
I drink to you, my lady
And my banner is unfurled,
And on it's face, my lady
There's writ this great defi—
"You can't be beat, my lady,
My purest 'Herald Rye'."

This toast is said to be, by Tom McGighe, the greatest toast ever uttered as it contains both strength and truth. He says that when you are getting rye, that HERALD RYE, is the only rye. Try this rye and find why it's nigh PERFECT.

RACE IS POSTPONED

In consequence of the death of Col. Wm. H. Cornwell who was a brother-in-law of Commodore Clarence Macfarlane the race of first class yachts to Wai'anae set for Saturday has been postponed till further notice. Mr. Cornwell's death made it impossible for Macfarlane to enter the La Paloma and the majority of the yachtsmen were close friends of Mr. Cornwell. The Regatta committee consequently decided to postpone the race indefinitely out of respect to their late friend who although he was not a member of the club took an active interest in its events and he did in all worthy sports.

OLAA'S OUTLOOK

From the present outlook, Olaa will turn out in the neighborhood of 24,000 tons during the season. This will be taken from 6,000 acres, including Puna. There are now under cultivation 11,500 acres of cane tributary to Olaa plantation, this of course including Puna and the contract sections and the promise for great success in the future is certainly good.

Olaa plantation employs in the neighborhood of 1400 to 1500 men of which number 120 or 130 are Koreans. These men are said to be fairly good workers although not up to the standard of the Chinese or Japanese.

WEEKLY MEETINGS.

A meeting of the executive committee of the Republican County Committee was held in headquarters last evening, the purpose being to talk over the matter of meetings. This was the first gathering since the election. It was decided that there should be weekly meetings of the committee, the exact day of meeting to be at the option of the chair. There was discussion on some other matters of importance to the county committee.

Invitations were extended to and have been accepted by the commanders and officers of the Italian ship Elba and the German training ship Herzogin Sophie Charlotte to attend the band concert to be given at the Alexander Young Hotel tonight.

MARU WAS LATE

The Toyo Kisen Kaisha steamship Hongkong Maru arrived from the Orient yesterday afternoon. The Maru left Yokohama two days late. Head winds and rough seas prevented her from making up lost time. During the voyage a large whale was seen.

Among the passengers were Rear Admiral Carlo Mirabello of the Italian navy, accompanied by his secretary, Lieut. Carlo Prister, and his aide, Lieut. Domingo Cavagnari. Admiral Mirabello left the command of the China squadron to go to Rome where he has been made Minister of Marine. The admiral visited the cruiser Elio last night.

Dr. S. Kobayashi, the well known Japanese physician who formerly lived here, returns to practice in this city. Alonzo H. Stewart, Assistant Secretary of the United States Senate, returns to Washington after a vacation spent in the Philippines.

The Maru's former purser, Mr. Freeman, having accepted a position with the firm of Castle & Co. in Manila, former freight clerk Roberts is now purser of the Maru.

When the Maru was in the Orient she went through her speed trial. The Hongkong Telegraph, Oct. 30, describes it as follows:

"The Toyo Kisen Kaisha's Pacific liner Hongkong Maru has again passed the severe test entitling the company to a renewal of the same government subsidy for another period of five years. She was to have made the trial on Tuesday, but owing to the proximity of the typhoon and the rough weather experienced it had to be abandoned, and it was not until yesterday that the majestic steamer set out for the south of the island and steamed over the government three-mile course. She made a mean average of 17.778 knots, although the requirement of the Japanese Government was only 17 knots. The credit of this successful performance, which is due to Capt. W. E. Filmer and Chief Engineer Seaver, speaks much for the Toyo Kisen Kaisha's three liners, which are now the fastest vessels of the Japanese mercantile marine. On her trial trip the America Maru made 18.20 knots, while the Hongkong Maru has done 17.77 and the Nippon Maru 17.55."
